Notice: Pricing Changes for Some CPR and ECC Materials Effective January 2019

Starting January 2019, the AHA will make adjustments to the pricing of some of its CPR and ECC materials. Please note, any Heartsaver products that had a price change in October 2017 will be excluded from the January 2019 price change.

We are currently working on getting all the price lists and rosters updated.

Reminders

- All instructors must be using updated materials.
- Feedback devices are required for teaching starting January 2019.
- Every instructor must be monitored every 2 years. If you have not been monitored in 2 years, you are expired.

Instructor Renewal Requirements

1. Maintain current provider status.
2. Teach a minimum of 4 classroom provider courses in 2 years.
3. Be monitored teaching a regular or renewal course in the preceding 2 years.
4. Complete an Updated Application for Affiliation & Instructor Candidate Application form.

Standard Specifics for Feedback Device Compliance with AHA

Minimum standard:

Instrumented, auditory, and visual feedback for rate and depth of compression.

Optimum standard:

Meets the minimum standard and includes auditory/visual feedback for recoil and didactic(s) for proper hand placement.
