Prestan Adult Manikins with CPR Monitor

Price: \$702.50 + tax

Part: PP-AM-400M

- *4 torso-only, adult manikins*
- *Latex free*
- *Includes 50 face shield/lung bags and a carrying bag*

Description:

These manikins allow students to gauge their own compression rate as they practice CPR. The monitors also allow instructors to guide several students at once.

- Head tilt/chin lift
- Chest rise
- Anatomical landmarks
- Compression clicker
- Disposable airways
- Includes AA batteries

New upgraded blue monitor! As recommended by the updated 2015 CPR Guidelines, Prestan® has taken its innovative and patented CPR Rate Monitor to the next level of quality feedback. When students are practicing CPR compressions on a Prestan® Adult Manikin, not only will they see when they have reached and are maintaining the minimum recommended speed of 100 cpm, they will also see when they reach the upper limit of 120 cpm. Light indicators are as follows:

- a **red light** indicates fewer than 60 compressions per minute
- a **yellow light** illuminates when the rate is 60 to fewer than 80 compressions per minute
- a **single green light** comes on when the student is administering 80 to fewer than 100 compressions per minute
- **two green lights** let students know that they have reached 100 compressions-119 per minute, and stay on to help students maintain that rate
- **two green lights and a flashing yellow light** indicates the student has reached 120 + compressions per minute and needs to slow down

Prestan Infant 4 pack with CPR Monitor

Price: \$630.00 + tax

Part: PP-IM-400M-MS-WP

- 4 full-body, infant manikins
- Latex free
- Includes 50 face shield/lung bags and a carrying bag

Description

These manikins allow students to gauge their own compression rate as they practice CPR. The monitors also allow instructors to guide several students at once.

- Realistic feel
- Head tilt/chin lift
- Chest rise
- Anatomical landmarks
- Compression clicker
- Disposable airways
- Includes AA batteries

Practi-CRM Wrist Band

Price: \$36.50 + tax

Part: WLCRM

- *It measures compression rate when practicing chest compressions on a manikin*
- *Worn on the student's wrist*
- *A diode illuminates red when compressions are less than 100 per minute. When compression rate rises to 100 cpm or higher the diode illuminates green*
- *Flexible wrist band fits any size wrist*
- *May be used with any training manikin*
- *Includes battery and carrying case*

Description

- Works with any type of CPR manikin
- Ideal for increasing students' confidence in their compression skills
- Provides instructors an easy way to check student performance during training sessions
- Designed to fit all students and allow for quick switching between users
- Battery provides up to 4 hours of continuous use

Practi-CRdM CPR Wrist Monitor

Price: \$52.00 + tax

Part: WLCRdM

- *Designed to measure compression rate and depth when practicing CPR on a manikin.*
- *The flexible wristband fits any size wrist and may be used with any training manikin.*
- *The rechargeable lithium battery lasts a minimum of 3-4 hours and may be charged via USB port*
- *Measures rate: A diode illuminates red when compressions are below 100 cpm or above 120 cpm. When compression rate is between 100 and 120 cpm the diode illuminates green, allowing users to self-check their timing.*
- *Measures depth: An audible "buzzer" will alarm when compression depth is not within the range of 5-6cm (2"-2.3"). Note: It is very important for the student to fully recoil during compressions. Otherwise the monitor will continue to beep.*
- *Includes case and charger*

Available to ship: Early mid/late January 2019

Description

- Measures rate: A diode illuminates red when compressions are below 100 cpm or above 120 cpm. When compression rate is between 100 and 120 cpm the diode illuminates green, allowing users to self-check their timing.
- Measures depth: An audible "buzzer" will alarm when compression depth is not within the range of 5-6cm (2"-2.3"). Note: It is very important for the student to recoil during compressions. Otherwise the monitor will continue to beep.
- On/Off function: hold your finger on the screen for three seconds to turn on or off.
- Rechargeable lithium battery 3.7V and capacity of 90mAh via USB port

Prestan Professional AED Trainer Kit

Price: 250.25 + tax

Part: PP-AEDT-KIT-101

- Meets AHA 2015 guidelines
- Contains 5 scenarios
- Spanish/English capability
- Includes: AED trainer with English/Spanish module, 4 'C' batteries (installed), one set of adult training pads, one set of pediatric training pads, one remote control, 2 'AA' batteries (installed), and instruction sheet and nylon carrying case.

Features include:

- The pads have an embedded 'switch' which senses that the AED Trainer pads are attached to the manikin torso
- Compatible with any CPR manikin
- Can be used to train in both semi-automatic and fully-automatic versions
- The silicone base adhesive on the pads, coupled with the foam structure, ensure easy application & removal
- Includes a scenario, volume control, and language button
- The pads can be used at least 50-60 times during CPR/AED classes
- Metronome and counts upward by 10's ending at 30 to help the student with chest compressions
- Module contains the software and the language. When guidelines change, only the module needs to be replaced
- Contains a pad testing system
- Remote control can be used to 'simulate loose pad', 'Initiate "Press Deeper" during CPR', and more

Replacement Parts

Prestan Professional AED Trainer Pads

Part: PP-APAD-1

Price: \$20.00 + tax

Prestan Pediatric Training Pads

Part: PP-PPAD-1
